

Virtual Gifting

Let us help you bring your virtual events to life!

Blink Marketing has a dedicated team in place to handle the design, production, kitting and fulfillment to support all of your virtual gifting needs! Whether it's a thank you gift, recognition item or morale booster, let our team handle the logistics.

Here's how it works...

- 1** You work with a dedicated Marketing Representative to select the item(s) that fit your needs and budget.
- 2** Blink produces the items and handles all warehousing, kitting and fulfillment.
- 3** Blink ships the items or kit to each of your recipients.

➤ Additionally, Blink can create a simple webstore where your recipient can choose an item and enter their shipping information. Once this information is captured, Blink Marketing will take care of the rest!

Contact your Marketing Representative or reach out to us at hello@blinkmarketing.com for more information!
